PROJECTS

Eventos Anime UY

Own project · ongoing

Platform that publishes upcoming anime and geek culture events in Uruguay. In charge of content, social media, and the site's technical development.

PROFILE

Web developer with over 10 years of experience in frontend and backend (JavaScript, React, HTML5, CSS3). Four years in the marketing area at Infragistics: web analytics, Google Tag Manager, A/B testing, performance work, and migration of WordPress and other CMS sites to Astro using GitHub Copilot and Claude Code. As a freelancer, I gather each client's requirements and propose the best solution.

EXPERIENCE

Web Developer · Infragistics Uruguay

Apr 2022 – Jul 2026 · Montevideo, hybrid

- Marketing area; teamwork using Git.
- Maintenance and optimization of WordPress and other CMS sites.
- Migrated those platforms to Astro, using GitHub Copilot and Claude Code.
- Experience migrating and upgrading sites to new platforms.
